

(Mobile) How to upload clinical photos

1. From the eDoctor mobile app, select **Photo Requests**

2. Select the button **Create new request** at the top of the screen

3. You will see this new screen. Provide the name and date of birth of the patient and click **proceed**

Surname*

Doe

Birth date*

01/01/1990

proceed

close

4. In the new screen, select a site from the dropdown list and then click the add photo button on the right. You will be presented with a dialogue box to either take new photos and choose ones from your gallery. You can add one or more photos for each site.

Birthdate: 01/01/1990

PATIENT'S PHOTOS
